El Paso Dispute Resolution Center Database Project   **El Paso, TX**
Project Lead   *Jan 2025 – Sep 2025*
- Led a team of students to implement an automated workflow database solution for a local government agency.
- Designed and developed a scalable database system to streamline case management, reducing case entry time from approximately 90 minutes to 10 minutes.
- Integrated Docker, PgAdmin, N8N, Box, and Budibase to develop a real-time data visualization platform, improving reporting accuracy and accessibility for stakeholders.
- Built automated data pipelines, enhancing workflow efficiency and operational decision-making.

LEADERSHIP EXPERIENCE

Business Intelligence & Analytics Society (BIAS)   **El Paso, TX**
President – Vice-President   *Jan 2025 – Present*
- Organized professional development initiatives and led cross-functional student teams in real-world analytics projects.
- Facilitated member participation in industry-relevant database projects, connecting students with hands-on data experience.
- Coordinated stakeholder communications and promoted events designed to enrich both the UTEP campus and the local community.

The Elmont Water Park, Resort & Venue   **El Paso, TX**
Aquatics Supervisor   *Jan 2025 – Present*
- Supervised a team of 40+ lifeguards in a high-volume resort setting, prioritizing risk mitigation and emergency preparedness.
- Certified as a Level Two Instructor and Supervisor with StarGuard Elite to teach safety protocols and lead crisis simulations.
- Led emergency response training sessions, reinforcing safety standards and crisis management strategies.

PROFESSIONAL DEVELOPMENT

UTIMCO Scholars Program   **Incoming Summer 2026**
- Engage in weekly virtual learning sessions with UTIMCO professionals and guest speakers from firms such as JP Morgan, Goldman Sachs, and PIMCO, covering asset classes including private equity, hedge funds, and public markets
- Complete hands-on market research projects and presentations alongside professional development workshops in resume writing, LinkedIn, and interview preparation.
- Attend in-person networking events at UTIMCO's Austin, TX office, building relationships with investment professionals as part of a pathway to Summer 2027 internship opportunities at top global investment firms.

Enterprise Resource Planning Academy   **Aug 2025 - Present**
- Meeting and networking with Supply Chain leaders within Cummins, Texas Instruments, and Lockheed Martin.
- Explored how major firms implement AI and analytics in ERP systems, inventory management, and demand forecasting.

Dell Technologies Academy   **Feb 2025**
- Collaborated with a student team to develop a data-driven supply chain solution for a real-world case.
- Applied analytical thinking and process optimization to present strategic recommendations.
- Attended executive-level workshops on presenting, communication, and personal branding.

Power BI Workshop   **Oct 2024**
- Created interactive Power BI dashboards for business analytics applications.
- Gained exposure to data-driven decision-making & visualization techniques.
